## **Roadwork Notice**

# **Webb Place Utility and Road Improvements**

**The construction project includes the replacement of a 1930's water main, replacement of the sewer line that currently has a low point in the middle and the addition of some new drainage. This will be followed by placing of an asphalt binder on the road. Final paving of the road is anticipated for the 2017 construction season.**

Tentative schedule:

October 18th – Milling of asphalt surface

October 20<sup>th</sup> – As per attached Notice, the Water Division will install new connection to water main.

October 24<sup>th</sup> – Contractor will start installing new water line on north side of road. This will be followed by testing and then connecting residents to new water main. This will then be followed by the replacement of the existing sewer line in the middle of the road with a new one in the same location. **During the installation of the sewer line we ask everyone to avoid discharge to the sewer as much as possible, no running of dishwashers or clothes washers during 7AM to 4PM.** Updates will be provided to inform residents when sewer construction is being done.

During changeover to the new water main customers may experience temporary water shutoff and /or discolored or cloudy water. Additional information will be provided to residents with the schedule for changeover to the new main.

**Please be aware that upon final paving, the road will have a five (5) year “no dig” moratorium.**

If anyone is considering adding or upgrading utilities to their property please schedule it with the appropriate utility and also notify the DPW. If you have any questions please contact the DPW Office at 508-261-7335 or [lazinheira@Mansfieldma.com](mailto:lazinheira@Mansfieldma.com).
