Road Construction Update

Newton and Pleasant Streets

6/05/19

Dear Mansfield Resident:

As the Highway Division finalizes the schedule for the 2019 Road Construction, we will continue the process of keeping residents informed regarding any work still to be completed from the previous year's construction.

Mark Cook, Highway Operations Manager, has visited Newton and Pleasant Streets and established that the following items still need to be finished:

- Two Walkways
- Touch-Up of Landscaping
- Final Paving
- Driveway Aprons

It is our hope to have the final walkways completed within the next month and Final Paving is anticipated for mid-September, pending confirmation from the Town contractor. Once dates for Final Paving are confirmed, the Highway Division will update all affected residents. Landscaping will immediately follow Final Paving.

As a reminder, the construction schedule is subject to change depending on weather conditions and contractor schedules. If there are items you feel we have missed or if you have any questions, please contact the Highway Division at 508-261-7336 or highwaydiv@mansfieldma.com. Please refer to www.mansfieldma.com for continued updates.
