- **Assessing risk**

As the state continues forward with re-opening, we continue to navigate through the risks of our actions as it relates to coronavirus exposure.

Here is a great table to assess activities and associated risk developed by the Barry Eaton District Health Department in Michigan.

# COVID-19: REDUCE YOUR RISK

Many factors influence the chances of getting or spreading the COVID-19 virus. When possible, choose activities or behaviors on the low-risk (green) side of the chart; keeping in mind that the more low-risk choices you make, the more protection you have from getting or spreading COVID-19.
