Subject: School Street marijuana facility

Sir,

Per our prior conversations, I would appreciate consideration be paid to fencing in the area of the facility for two reasons. The first is the location and proximity to the train tracks which as you know have the second highest mortality rate in the Commonwealth due to access and speed factors. Target hardening of the location by stakeholder businesses that control properties adjacent to the tracks can only have a positive outcome. Secondly, fencing can assist in security in general and I understand it would have to accommodate the footprint and limitations to the site should they be discovered.

Any consideration to this would be greatly appreciated.

Ronald Sellon

Chief of Police
