Covid-19 Related Deaths	24	Last Covid death in Mansfield 04/21/21

Vaccine Distribution in Mansfield as of June 17, 2021

- [Get Vaccinated Against COVID-19 for individuals age 12+](#)

People age 12+ who live, work or study in Massachusetts can be vaccinated. Sign up and be notified of appointments near you. Use [VaxFinder.mass.gov](https://vaxfinder.mass.gov) to search for appointments at pharmacies, health care providers, and other community locations.

Council on Aging staff is available to assist any vaccine-eligible seniors who need help navigating the scheduling process. Please call 508-261-7368.

- [New Voluntary Tool to Enhance COVID-19 Exposure Awareness](#)

[MassNotify](#) is a new free smartphone service that people in Massachusetts can voluntarily use to let others know that they may have been exposed to COVID-19. Massachusetts remains a leader in the nation in COVID-19 vaccinations, with over 4 million residents fully vaccinated, and COVID-19 case trends continue to drop. Case counts in Massachusetts are down 99% from their peak in January, and hospitalizations are down by 93% since their peak in January.

Developed in conjunction with Apple and Google, MassNotify can be enabled on an iPhone or Android phone in seconds and provides an additional layer of awareness and safety for Massachusetts residents as the Commonwealth reopens. MassNotify alerts provide valuable awareness for both vaccinated and unvaccinated residents to help prevent future COVID transmission and keep Massachusetts open and residents safe from COVID-19. The technology works anonymously and does not track users or divulge personal information.

Massachusetts joins 28 other states across the U.S. and over 35 countries around the world who are utilizing similar exposure alerts to increase awareness and continued vigilance as vaccination numbers boost and re-opening resumes. MassNotify can be easily enabled on a smartphone through Settings on both Apple and Android phones. Instructions for enabling on a phone, along with more information about MassNotify, can be found at www.mass.gov/massnotify. Residents can opt in immediately.

MassNotify is safe, anonymous, secure, and voluntary. It will not collect information about who you are, where you go, or with whom you come in contact. Users can maintain privacy while utilizing a COVID-19 awareness tool to help protect themselves and their families.

How it Works:

When two people using MassNotify are near each other, their phones exchange random codes using Bluetooth. These random codes are completely anonymous, with no location tracking or exchange of personal information. When a person in Massachusetts tests positive for COVID-19 they will receive a text message with instructions on how to anonymously share their test result. If they do share their result, MassNotify users who were near the person who tested positive may receive an anonymous alert on their phone about their possible exposure to COVID-19.

- [VaxMillions Giveaway](#)

The VaxMillions Giveaway will consist of five weekly statewide drawings with participants being eligible to win one of the prizes below:

- Massachusetts residents 18 years of age and older who have received both doses of the Pfizer or Moderna vaccines or one dose of the Johnson & Johnson vaccine will have a chance to win one of five \$1 million cash prizes.
- Massachusetts residents between 12 and 17 years of age who have received both doses of the Pfizer vaccine will have a chance to win one of five \$300,000 scholarship grants to a 529 College Savings Plan managed by the Massachusetts Educational Financing Authority (MEFA). Funds in a 529 plan can be applied to cover tuition, room and board, and related expenses at any college, university, technical or trade school, or other post-secondary educational institution eligible to participate in a student aid program

administered by the U.S. Department of Education. Winners with a qualifying disability may elect instead to receive an equivalent financial contribution to a special needs trust or federally qualified ABLE account to cover qualified expenses.

The Commonwealth is launching the Massachusetts VaxMillions giveaway as one of many strategies to increase awareness of the availability and efficacy of the COVID-19 vaccines and to encourage residents to get vaccinated and to be safe.

You must be fully vaccinated prior to submitting your entry. This means you must have received two doses of either the Pfizer or Moderna vaccine, or one dose of the Johnson & Johnson vaccine.

Residents will be able to enter the VaxMillions Giveaway online and additional details on the website sign up will be released prior to July 1.
