## STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

When in public,  
wear a cloth face  
covering over your  
nose and mouth.

- [Bristol County identified as an area of high transmission](#)

Bristol County has been identified by the CDC as an area of high transmission for COVID-19. The CDC recommends all people, no matter their vaccination status, wear masks indoors and in crowded outdoor settings in areas of substantial or high transmission. More information can be found [here](#). Within Massachusetts, county designation is the following:

County	COVID transmission level
Barnstable	High
Berkshire	High
Bristol	High
Dukes	High
Essex	High
Franklin	Substantial
Hampden	High

County	COVID transmission level
Hampshire	High
Middlesex	High
Nantucket	High
Norfolk	High
Plymouth	High
Suffolk	High
Worcester	High

A new CDC study finds widespread use of masks and less contact or time spent close to persons with COVID-19 can limit the spread of the virus in university settings. Everyone in areas with high transmission should wear a mask when in close contact with others, in public indoor places, regardless of vaccination status. <https://bit.ly/mm7036a3>.

- [Get Vaccinated Against COVID-19 for individuals age 12+](#)

People age 12+ who live, work or study in Massachusetts can be vaccinated. Sign up and be notified of appointments near you. Use [VaxFinder.mass.gov](https://vaxfinder.mass.gov) to search for appointments at pharmacies, health care providers, and other community locations.

Council on Aging staff is available to assist any vaccine-eligible seniors who need help navigating the scheduling process. Please call 508-261-7368.

- [Testing for COVID-19](#)

Testing is our best tool to identify those who have been exposed and slow the uptick in cases. Anyone experiencing even mild symptoms should get tested, as well as anyone who has had a close contact with an individual who has tested positive for COVID-19. Testing is encouraged regardless of vaccination status. <https://www.mass.gov/covid-19-testing>

**Know the symptoms of COVID-19, which can include the following:**

**Symptoms can range from mild to severe illness, and appear 2–14 days after you are exposed to the virus that causes COVID-19.**
