

COMMUNITY UPDATE COVID-19

January 20, 2022:

The Town of Mansfield continues its community update on our website with our up to date information and important tips for the public as it relates to the COVID-19 pandemic. For more complete information, please see the town [coronavirus webpage](#).

- **As of today, please see the below chart that represents our communities COVID-19 relates cases:**

<i>Mansfield Covid-19 Workflow</i>	#	
Positive COVID-19 under isolation	297	(updated 01/20 08:00)
Positive Cases recovered	3488	
Total tested positive since beginning:	3814	
Covid-19 Related Deaths	29	Last Covid death in Mansfield 12/20/21

Vaccine Distribution in Mansfield- data through January 11, 2022*

■ Population ■ Individuals with booster doses ■ Fully vaccinated individual, no booster ■ Partially vaccinated individuals

Booster doses recommended for ages 12+

All data obtained from [Massachusetts COVID-19 vaccination data and updates | Mass.gov](https://www.mass.gov/info-details/massachusetts-covid-19-vaccination-data-and-updates)

*The Centers for Disease Control and Prevention (CDC) now recommends that [Americans stay "up to date" with COVID-19 vaccines](#), rather than be "fully vaccinated." Up to date means a person has received all recommended COVID-19 vaccines, including any booster dose(s) when eligible. Fully vaccinated means a person has received their primary series of COVID-19 vaccines.

- [Types of Masks and Respirators](#)

Wearing a mask that fits well, is most protective, and that you will wear consistently is a critical public health tool for preventing spread of COVID-19.

Some masks and respirators offer higher levels of protection than others, and some may be harder to tolerate or wear consistently than others. It is most important to [wear a well-fitting mask](#) or respirator correctly that is comfortable for you and that provides good protection.

Properly fitted respirators provide the highest level of protection and may be most important for certain higher risk situations, or by some people at [increased risk for severe disease](#).

CDC's [mask recommendations](#) provide information that people can use to improve how well their masks protect them.

- [Free at-home COVID-19 Test kits](#)

Every home in the U.S. is eligible to order 4 free at-home COVID-19 tests. The tests are completely free. Orders will usually ship in 7-12 days.

Order your tests now so you have them when you need them. Click here: [Place Your Order for Free At-Home COVID-19 Tests](#)

Residential households in the U.S. can order one set of 4 free at-home tests from USPS.com. Here's what you need to know about your order:

- Limit of one order per residential address
- One order includes 4 individual rapid antigen COVID-19 tests
- Orders will ship free starting in late January

The Town of Mansfield does not have any public testing or self-test kits available at this time. Please check the [Mansfield Health Department Coronavirus Information webpage](#) for updates.

- [Mask Mandate for all public spaces within Mansfield](#)

Due to the rapid rise in cases in the Town of Mansfield, the Mansfield Board of Health has enacted an emergency order requiring masks for all individuals aged two years and above in all indoor public spaces, places of worship, or private spaces open to the public except where an individual is unable to wear a face covering due to a medical condition or disability. This mandate will be in place until February 28, 2022. Additional information can be found on the Coronavirus webpage: [Coronavirus Information | Mansfield, MA \(mansfieldma.com\)](#)

- [Bristol county identified as an area of high transmission](#)

Bristol county has been identified by the CDC as an area of high transmission for COVID-19. The CDC recommends all people, no matter their vaccination status, wear masks indoors and in crowded outdoor settings in areas of substantial or high transmission. More information can be found [here](#).

County	COVID transmission level
Barnstable	High
Berkshire	High
Bristol	High
Dukes	High
Essex	High
Franklin	High
Hampden	High
Hampshire	High
Middlesex	High
Nantucket	High
Norfolk	High
Plymouth	High
Suffolk	High
Worcester	High

Bristol County, Massachusetts

[State Health Department](#) [↗](#)

7-day Metrics | [7-day Percent Change](#)

Community Transmission ● High

Everyone in **Bristol County, Massachusetts** should wear a mask in public, indoor settings. Mask requirements might vary from place to place. Make sure you follow local laws, rules, regulations or guidance.

[How is community transmission calculated?](#)

January 20, 2022

Cases	10,049
Case Rate per 100k	1,777.9
% Positivity	N/A
Deaths	20
% of population ≥ 5 years of age fully vaccinated	66.1%
New Hospital Admissions	257

Data from [CDC COVID Data Tracker](#)

- [Isolation and Quarantine Guidance for the General Public](#)

If you test positive for COVID-19 (isolate)

Everyone, regardless of vaccination status:

- Stay home for 5 days.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house.
- Continue to wear a mask around others for 5 additional days.

If you have a fever, continue to stay home until your fever resolves

If you were exposed to someone with COVID-19 (quarantine)

If you:

Have been boosted

OR

Completed the primary series of Pfizer or Moderna vaccine within the last 6 months

OR

Completed the primary series of J&J vaccine within the last 2 months

- Wear a mask around others for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home.

If you:

Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted

OR

Completed the primary series of J&J over 2 months ago and are not boosted

OR

Are unvaccinated

- Stay home for 5 days. After that continue to wear a mask around others for 5 additional days.
- If you can't quarantine you must wear a mask for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home

Addition information about isolation and quarantine can be found at [Covid Information | Mansfield, MA \(mansfieldma.com\)](#)

If you test positive for COVID-19, [it's important for you to tell your close contacts](#) that they may have been exposed to COVID-19 so they can [quarantine](#), [get tested](#), and wear a [well-fitting mask](#). If they are infected, they could spread COVID-19 starting 2 days before they have any symptoms or test positive. By letting your close contacts know they may have been exposed to COVID-19, you are helping to protect them and everyone around them. [Recommendations](#) for close contacts vary depending on whether they are up to date with their COVID [vaccinations](#) or had confirmed COVID-19 within the 90 days prior to close contact. Someone is still considered a close contact even if they were wearing a mask while they were around you.
