Dear Mansfield Resident:

In preparation of an upcoming water main replacement project in the Spring of 2024, the Mansfield Water Division has scheduled a contractor to conduct Geoprobe sampling in the roadway on Stearns Avenue between Erick Road and Colonial Drive.

This project consists of the contractor drilling holes into the road in order to obtain these samples, along with our crew clean up the drilling site after completion. **The work is scheduled on Wednesday May 25, 2022 between the hours of 8:00am – 4:00pm.** Please anticipate construction delays throughout the day, as well as excessive noise at times due to this drilling.

We apologize for any inconvenience this may cause. Please be aware that the schedule is subject to change depending on underground conditions.
